Working Together

We have read some stories of characters helping each other to fix a problem. Now, it is your turn to come up with a story about characters working together!

PART 1: Come up with three characters and give them names.

Character 1's Name:	Character 2's Name:	Character 3's Name:

PART 2: Think of a problem Character 1 has. How do Character 2 and Character 3 help solve the problem? (building something, drawing something, not having the right tools, finding something, getting somewhere, ...)

1. What problem does Character 1 have?

2. What does Character 2 do to help solve Character 1's problem?

3. What does Character 3 do to help solve Character 1's problem?
